

6th SONA Conference

"Developing Individual Growth through Community Collaboration"

Quebec City, Canada
April 25-27, 2007

Dear students and colleagues:

Be part of the new generation of future North American leaders. Participate in the Student Organization of North America's (SONA) 6th Conference!

This event offers you the opportunity to attend sessions and conferences with leaders and experts in higher education, government authorities, representatives of the private sector and foundations, as well as students, to exchange ideas in an international setting.

Relations among Canada, United States and Mexico continue increasing in diverse environments, challenging future professionals to have a global vision focus on the opportunities and goals that will help us adapt to the new reality.

By promoting trilateral relations among the three countries, we seek to participate with a framework of cooperation discussing current issues and developing projects that will benefit our communities.

Highlights of the Conference will include:

- Embracing our North American Identity
- Adapting to Multiculturalism in North America
- North American Integration in Higher Education Programs
- Economic Integration: eliminating barriers in North America
- Developing Negotiation Skills
- Tools for professional success: Leadership, Entrepreneurship, Values, and Teamwork.

For more information about the Conference please visit our website at:
